Q1. Who supplies all non-Harris equipment? For example, consoles, jackfields, audio monitoring, misc monitors; custom Broadcast Service Panels.

A. All non-Harris equipment will be supplied by the Systems Integrator (SI).

Q2. Can you better define the camera and lighting requirements?

A. The lighting package will be supplied by UF. The SI will install it and supply the grid components.

Q3. We have not received block diagrams that are referred to (i.e. page 14 discussion of Multi-viewer).

A. The block diagrams should not be part of the bid specs. Any reference to them was inadvertently left in when they were removed.

Q4. Will this facility be required to be “3G” 1080P compatible?

A. The University supplies all wireless connections, so we will not worry about “3G”. The facility should be capable of 1080p standard.

Q5. Addendum B refers to several items (i.e. lighting) that require drawings in order to provide an accurate proposal. Have these drawings been released as part of the RFP?

A. No

Q6. Is there supposed to be a drawing package included with the RFP?

A. No
